Rig Moving

With a global experience in rig move operations, InterMoor can provide a comprehensive range of complex services and operations to fit your offshore marine needs.

INTERMOOR

an ACTEON company

Whether moving to shallow waters or ultra-deep water, InterMoor can assist with your marine operation needs. With advanced technology and a world of experience, InterMoor provides marine representatives, towmasters, master mariners and field engineers – along with the precise equipment necessary to move your rig safely.

Our core marine activities comprise:

Rig Moving

- Provision of detailed rig move marine and positioning procedures, proposed and as-laid anchor pattern drawings and the specification of mooring equipment.
- Provision of competent Towmasters and Marine Representatives to supervise the execution of operations and see that the proper controls are in place to ensure safe, efficient and pollution free operations.
- Supply of survey and positioning equipment and operating personnel enabling drilling units and their support vessels to be positioned and accurately monitored during the movement and re-location.

Marine Assurance

- Vessel auditing using the IMCA Common Marine Inspection Document and MSF AHV / PSV Inspection Checklist formats.
- Specialist vessel auditing to OCIMF (SIRE) standard by OCIMF accredited auditors and inspectors.
- Provision of vessel On-hire and Off-hire surveys and cargo surveys.
- Mobile Offshore Drilling Unit, Marine and Mooring System audits for both semi-submersible and jack-up rigs.
- Conducting Emergency Response and Rescue Vessel Annual Validation Trials.
