

## **INTERMOOR APPOINTS TWO OCEAN ENGINEERS**

**HOUSTON (Mar. 7)** – InterMoor Inc., an Acteon company, has added Tom Bauer as lead structural engineer and Kent Longridge as lead mooring engineer.

Bauer has roughly 15 years experience in the offshore industry and will lead structural engineering efforts on InterMoor’s new projects and for a variety of analyses for new and existing offshore structures and mooring systems.

Longridge has nearly 13 years of industry experience and will lead mooring engineering efforts on assigned projects as well as being responsible for quality control of all mooring and installation analysis.

Most recently, Bauer and Longridge were principal technical leaders for KBR/Granherne’s marine and riser department within the offshore technology group, and contributed to projects by producers BP, ExxonMobil and ChevronTexaco, among others.

As an industry leader in innovative mooring technology, InterMoor delivers integrated mooring systems worldwide for the offshore oil and gas industry.

Acteon is a group of specialist engineering companies serving the global oil and gas industry.
