

**INTERMOOR PARTNERS
WITH BRAZILIAN OFFSHORE SERVICE PROVIDER**

HOUSTON (July 25) – InterMoor Inc. and Brazilian-based Fluke Engenharia LTDA have entered into an exclusive co-operation to design, fabricate and install mooring systems servicing both Petrobras and private foreign operators in waters offshore Brazil.

InterMoor, an Acteon company, utilizes advanced technology and experienced personnel to deliver integrated mooring systems worldwide for the offshore oil and gas industry. Acteon is a group of specialist engineering companies serving the global oil and gas industry based in the United Kingdom.

Fluke Engenharia LTDA offers structure fabrication and qualified technical services for offshore industries. The company provides proof testing, inspection and fabrication services for the Petrobras mooring systems as well as private operators in Brazil. With its main office in Rio de Janeiro, it has a fabrication and inspection facility in Macae.
