

## **INTERMOOR NAMES BOYCE SUBSEA INSTALLATION MANAGER**

**HOUSTON (Oct. 17)** – InterMoor Inc., an Acteon company, has named Brent Boyce subsea installation manager, InterMoor President Tom Fulton announced.

InterMoor Inc. designs, provides and installs integrated mooring systems worldwide for the offshore oil and gas industry.

Boyce, who will be based at InterMoor’s Houston office, will be responsible for the management of InterMoor’s Compensated Anchor-handler Subsea Installation Method (CASIM) and other installation activities. He will also be assisting in the marketing of CASIM, a system designed to safely and economically lower subsea equipment.

“Brent’s experience and leadership will be a great addition to the InterMoor team,” said Fulton. “Brent’s contacts and knowledge of the subsea market will only enhance our ability to market and operate the CASIM system.”

Boyce, a native of Houston, has more than nine years of experience in management of subsea intervention and completion systems. Most recently, Boyce served as project manager for Saipem America in Houston.

InterMoor, an Acteon company, is an industry leader in innovative mooring and installation technology. Acteon is a group of specialist engineering companies serving the global oil and gas industry.
