

INTERMOOR DO BRASIL RECEIVES ISO 9001:2008 CERTIFICATION

HOUSTON (October 13, 2009) – InterMoor do Brasil Serviços Offshore de Instalação Ltda., an Acteon company, has received its ISO 9001:2008 certification for its Rio de Janeiro facility.

This certifies InterMoor do Brasil to perform a full range of services to meet its customers' needs including engineering, design, installation and servicing of mooring equipment and subsea structures.

"We are pleased to announce InterMoor do Brasil receiving ISO certification," said Randy Mautz, InterMoor Quality, Health, Safety and Environment Director. "InterMoor is dedicated to implementing processes on a worldwide QHSE basis to convey to our customers our commitment to safety and quality of service."

To receive an ISO 9001:2008 certification, an organization must develop, maintain and continually improve a quality management system to ensure that the organization consistently provides a product that meets customer and applicable regulatory requirements with the aim to enhance customer satisfaction through the effective implementation of the system.

InterMoor is a leading supplier of mooring technology providing innovative solutions for rig moves, mooring services and subsea foundations including engineering and design; survey and positioning; fabrication; and subsea services.

Acteon is a group of specialist engineering companies serving the global oil and gas industry.
