

INTERMOOR AWARDED MOORING PROJECT FOR NOBLE ENERGY OFFSHORE EQUATORIAL GUINEA

HOUSTON (April 13, 2010) – InterMoor Inc., an Acteon company, has been awarded a preset mooring project for Noble Energy offshore Equatorial Guinea, announced InterMoor President Tom Fulton.

InterMoor will be providing the design, engineering, procurement and installation services for preset moorings in the Aseng Field. Five preset mooring legs will be installed at a water depth of approximately 1,050 meters (3,445 ft).

The *Pride South Pacific* and the *Atwood Hunter* are the rigs Noble Energy will be utilizing for this project, and the *Maersk Terrier* will be the installation vessel.

Personnel will also be provided by InterMoor for the drilling program that will last approximately 14 to 16 months.

“This project for Noble Energy is another example of InterMoor’s full service, global mooring capabilities. Our products, services and employees consistently provide the highest level of quality to all of our clients worldwide,” said Ike Burke, a project manager for InterMoor.

InterMoor is the global leader of mooring and subsea technology providing innovative solutions for rig moves, mooring services and subsea foundations including engineering and design; survey and positioning; fabrication; and subsea services.

Acteon is a group of specialist engineering companies serving the global oil and gas industry.
