

**INTERMOOR'S LAFAYETTE FACILITY RECEIVES
ISO 9001:2000 CERTIFICATION**

HOUSTON (December 16, 2009) – InterMoor Inc., an Acteon company, has received ISO 9001:2000 certification for its subsea services facility in Lafayette, LA.

This certifies InterMoor to perform a scope of work including engineering, design, fabrication, installation and servicing of subsea structures. With the addition of the Lafayette location, all of InterMoor's facilities in the United States, United Kingdom and Brazil are now certified.

"Achieving ISO status for our subsea services facility shows InterMoor's clients that our processes are held to the highest standard in each of our facilities," said Randy Mautz, InterMoor Quality, Health, Safety and Environment Director. "As a company, we have a commitment to quality assurance and providing products and services that will successfully meet our customers' needs."

To receive the new ISO 9001:2000 certification, an organization must develop, maintain and continually improve a quality management system to ensure that the organization consistently provides a product that meets customer and applicable regulatory requirements with the aim to enhance customer satisfaction through the effective implementation of the system.

InterMoor is the global leader of mooring and subsea technology providing innovative solutions for rig moves, mooring services and subsea foundations including engineering and design; survey and positioning; fabrication; and subsea services.

Acteon is a group of specialist engineering companies serving the global oil and gas industry.
